ARBURY
GATES & RAILINGS

Your perfect gates
& railings start here

Our story

We guarantee exceptional quality and attention to detail from start to finish

At Arbury Gates & Railings, we take pride in being a family-run business with over 30 years of personal experience in the industry.

Based in Warwickshire, we serve the local area, creating bespoke gates and railings tailored to your exact style and needs.

Every feature is carefully designed to closely match your vision before being expertly hand-crafted in-house at our local facility.

Local, family run business

As a local, family-owned business, we take pride in delivering high-quality, bespoke wrought iron and composite products to our customers.

With a strong focus on craftsmanship and attention to detail, we work closely with our clients to ensure that each piece, whether for your home or business, meets the highest standards.

Designed & Manufactured in Warwickshire

We put durability and design at the forefront of our craft.

By keeping our design and manufacturing in-house, with precise and proven processes in place, we maintain full control over quality.

This ensures that your gates and railings withstand the test of time and meet nothing less than our highest standard.

10 questions to ask

We understand you might want to shop around for the best price and service.

Below is a list of important questions that should be asked when receiving quotes from other suppliers, along with our answers.

Questions to ask	Arbury	1	2
Is the quote like-for-like? Are the materials, design, and 3-part finish the same? Have samples and full written details with images been provided?	✓		
How long have they been trading? Do they have the same industry experience as us—with over 30 years in the trade and 26 as Arbury Gates and Railings Ltd?	✓		
Do they demonstrate craftsmanship? Can they answer technical questions and prove their skills? Do they use proven methods for long-lasting results?	✓		
What's the quality of their finish? Do they follow a 3-stage process like ours—preparation, protection, and a high-quality finish?	✓		
Can they reinstate your driveway? Do they have the expertise to restore block paving, printed concrete, or tarmac after installation?	✓		
What automation system do they use? Have they specified a premium automation kit like CAME, the global leader?	✓		
Are they fully insured? Can they provide proof of the necessary liability insurance?	✓		
Do they offer aftercare? Will they fix issues even long after installation, like we do?	✓		
What payment options do they offer? Do they provide flexible choices like bank transfer, card, cash, or cheque?	✓		
Why choose them? Have they earned the same level of trust and 5-star reviews as we have?	✓		

Why choose Arbury?

Combining experience with quality

At Arbury Gates & Railings, we combine expert craftsmanship with high-quality materials and unique intricate finishing processes to create bespoke gates and railings that are built to last. With over 30 years of experience, we design, manufacture, and install everything in-house, ensuring exceptional quality, durability, and attention to detail at every stage.

Made in the UK

All our gates and railings are designed and manufactured by us, from concept to completion, in our Warwickshire facility, ensuring you receive only the best quality.

Low Maintenance

Our unique 3 step finishing process keeps your gates protected from general wear and tear and maintains that brand new look and feel for years with minimal maintenance necessary!

Weatherproof

Be it high UV rays, a cold snap, heavy rain, or snow, our gates are designed and manufactured to withstand harsh and extreme weather conditions, year after year.

UV Protected

No faded colours or worn finishes here. We apply a zinc-rich primer to minimise the effects of UV rays, preventing discolouration and ensuring your gates and railings stay protected for years to come.

From our local workshop to your home, carefully handcrafted and installed by our specialist team

Our unique 3 step finishing process

Durability relies on a perfectly crafted, hard-wearing finish. Our unique 3-step finishing process is designed to ensure your gates and railings last for years to come, offering superior protection against UV rays, rust, and all weather conditions - all while keeping maintenance to a minimum.

Step 1

Shot Blast

The process begins with shot blasting the metal to remove mill scale and surface impurities. This ensures a clean and textured base, allowing the next layers to adhere properly for a stronger and more durable finish.

Step 2

Zinc Primer

A specialist zinc-rich primer is applied, creating a protective barrier against rusting and corrosion. This extra layer of defence helps extend the lifespan of your gates and railings, keeping them in a like-new condition for years to come.

Step 3

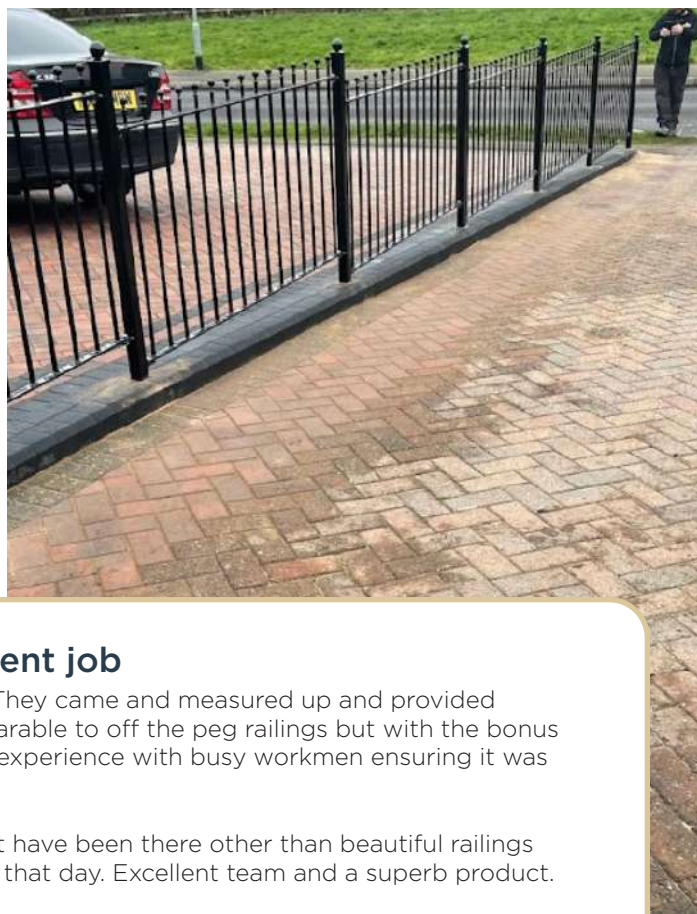

Powder Coating

The process is completed with a high-quality powder coat. This is baked onto the surface, creating a smooth, durable, and weather-resistant finish. This not only provides long-lasting protection but also a sleek appearance, giving your gates and railings a stylish look.

What our customers say

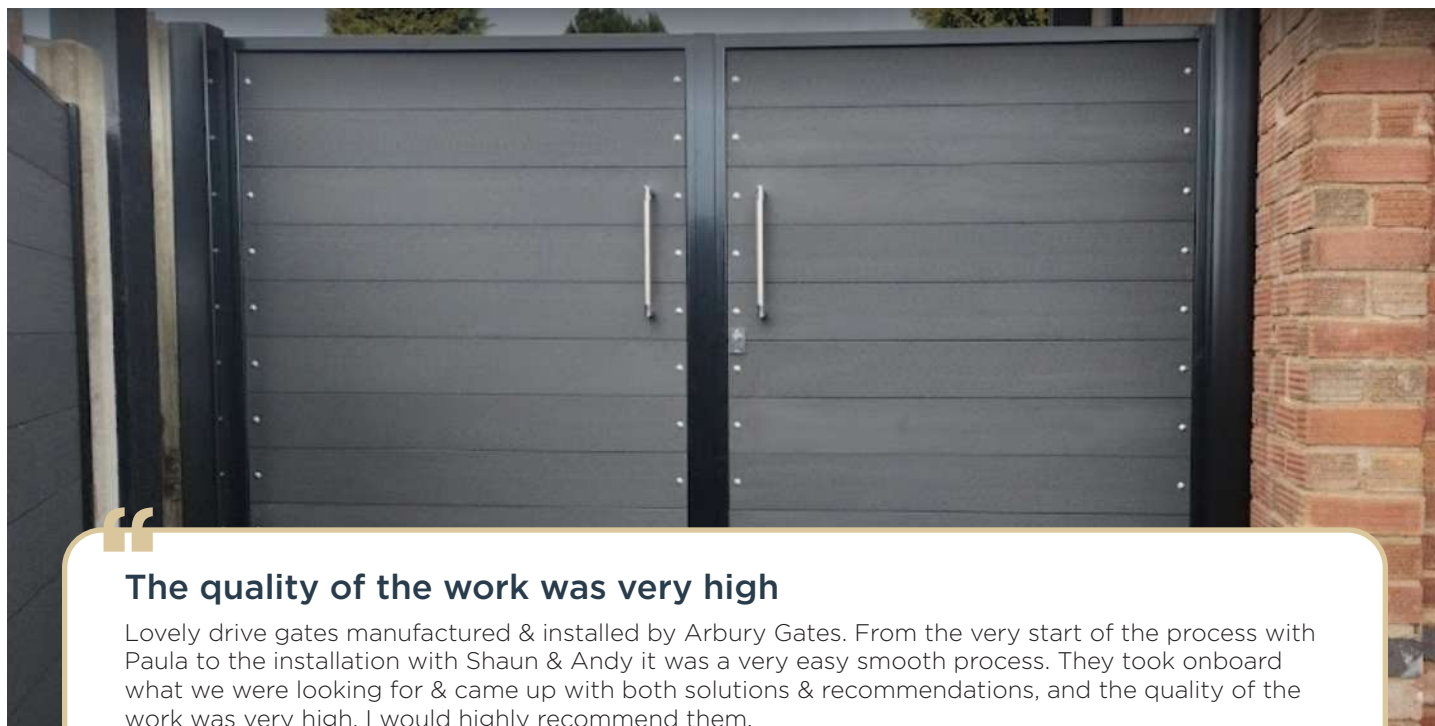

No mess, no fuss just a really excellent job

Paula and Shaun were a lovely couple to deal with. They came and measured up and provided photographs of their products. The price was comparable to off the peg railings but with the bonus of a bespoke product. The fitting was a really good experience with busy workmen ensuring it was installed to my exact requirements.

No mess, no fuss just a really excellent job. If I hadn't have been there other than beautiful railings appearing I wouldn't have known I'd had work done that day. Excellent team and a superb product. Thank you.

Barbara, Leicestershire

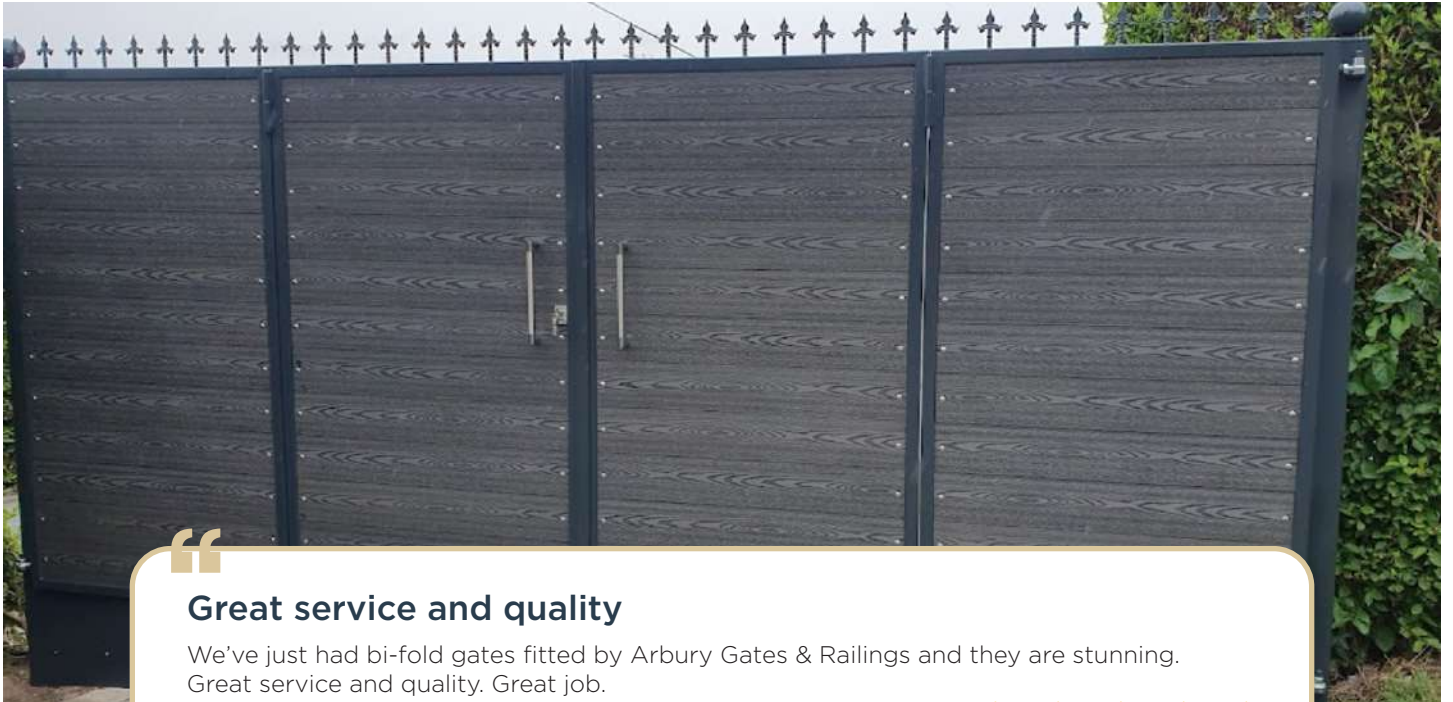

The quality of the work was very high

Lovely drive gates manufactured & installed by Arbury Gates. From the very start of the process with Paula to the installation with Shaun & Andy it was a very easy smooth process. They took onboard what we were looking for & came up with both solutions & recommendations, and the quality of the work was very high. I would highly recommend them.

John, Leicestershire

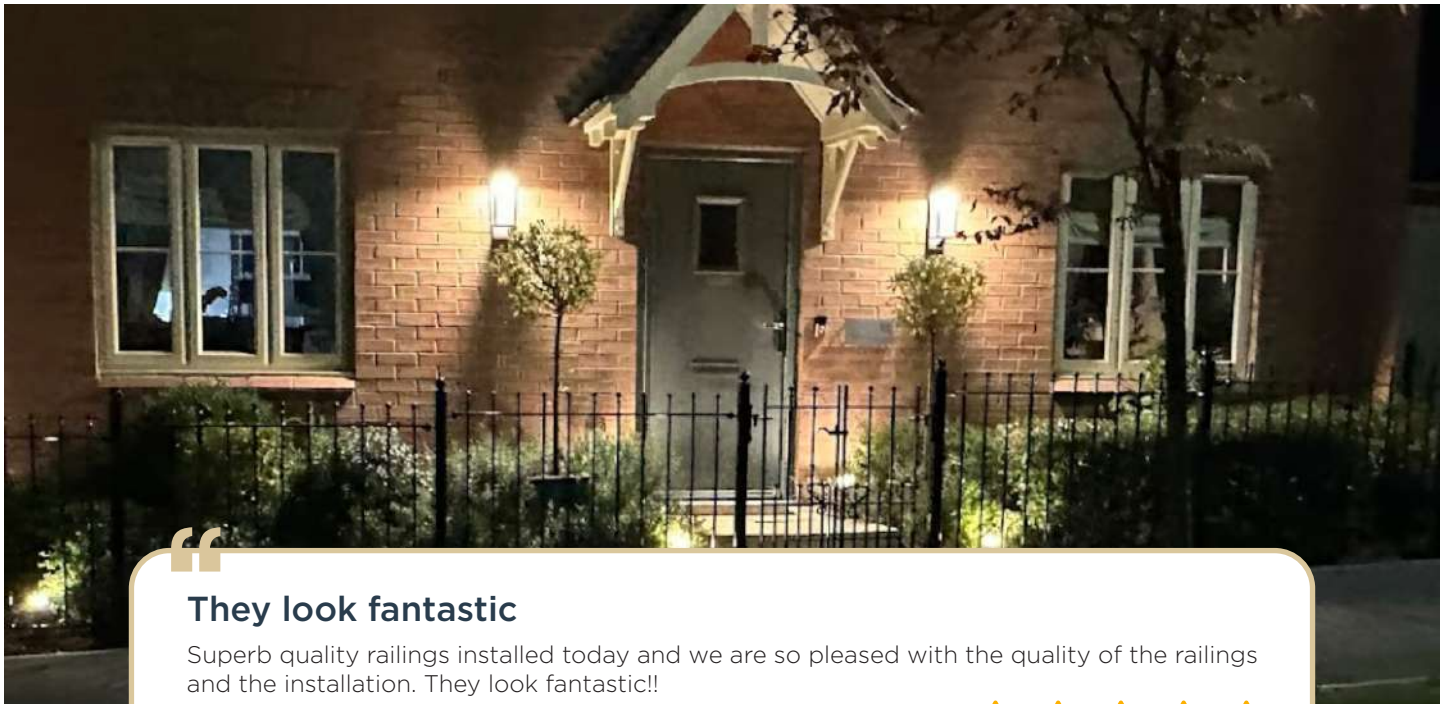

Great service and quality

We've just had bi-fold gates fitted by Arbury Gates & Railings and they are stunning. Great service and quality. Great job.

Claire, Leicestershire

They look fantastic

Superb quality railings installed today and we are so pleased with the quality of the railings and the installation. They look fantastic!!

Automation

Upgrade your gates with automation

Convenience is key; don't let your new gates slow you down. We provide a professional, fully compliant gate automation service tailored to your needs.

Our durable, remote-controlled motor system puts full control at your fingertips, allowing you to operate your gates effortlessly at the touch of a button.

It doesn't stop at access control. We can integrate a complete intercom system, giving you the ability to open your gates to visitors of your choosing without leaving your home or workplace.

Included with all automated gates

Motors

High quality, durable motors designed to smoothly and efficiently operate your gates.

Safety Photo Cells

Sensors that detect obstacles in the path of the gate, preventing accidents by stopping the gate's movement if something or someone is detected.

Safety Edges

Placed along the gates ensuring they stop if they come into contact with an obstruction.

2 Key Fobs

Additional fobs are available at an extra cost.

Intercom options

For enhanced security and communication you can add one of our intercom systems to your gate automation package.

Audio

Speak to visitors before allowing access, ensuring you know who's entering your property.

Video

Gain visual confirmation of visitors for added peace of mind.

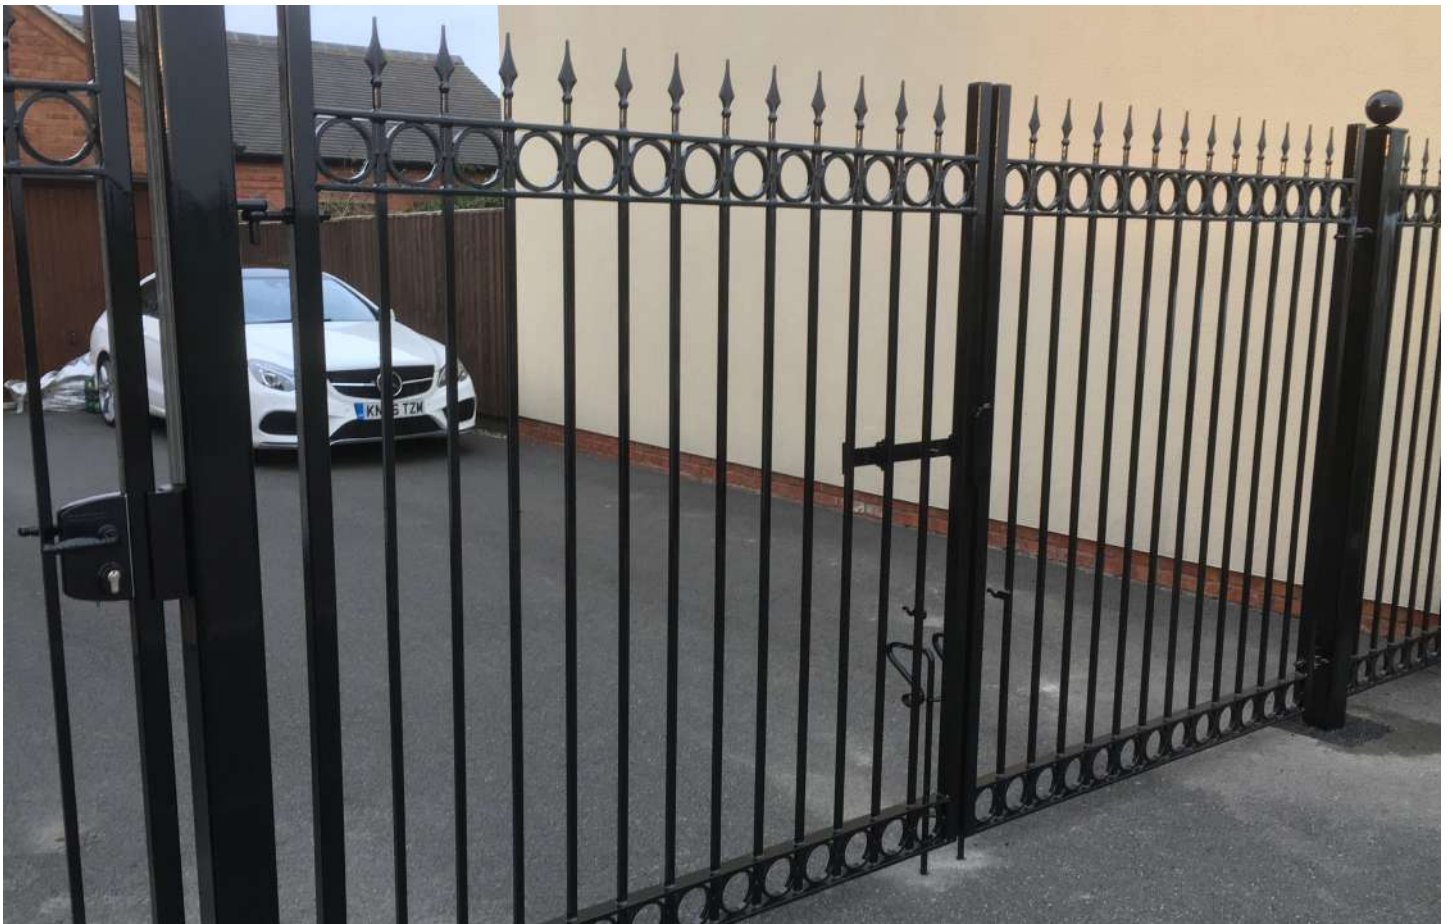

Composite Gates

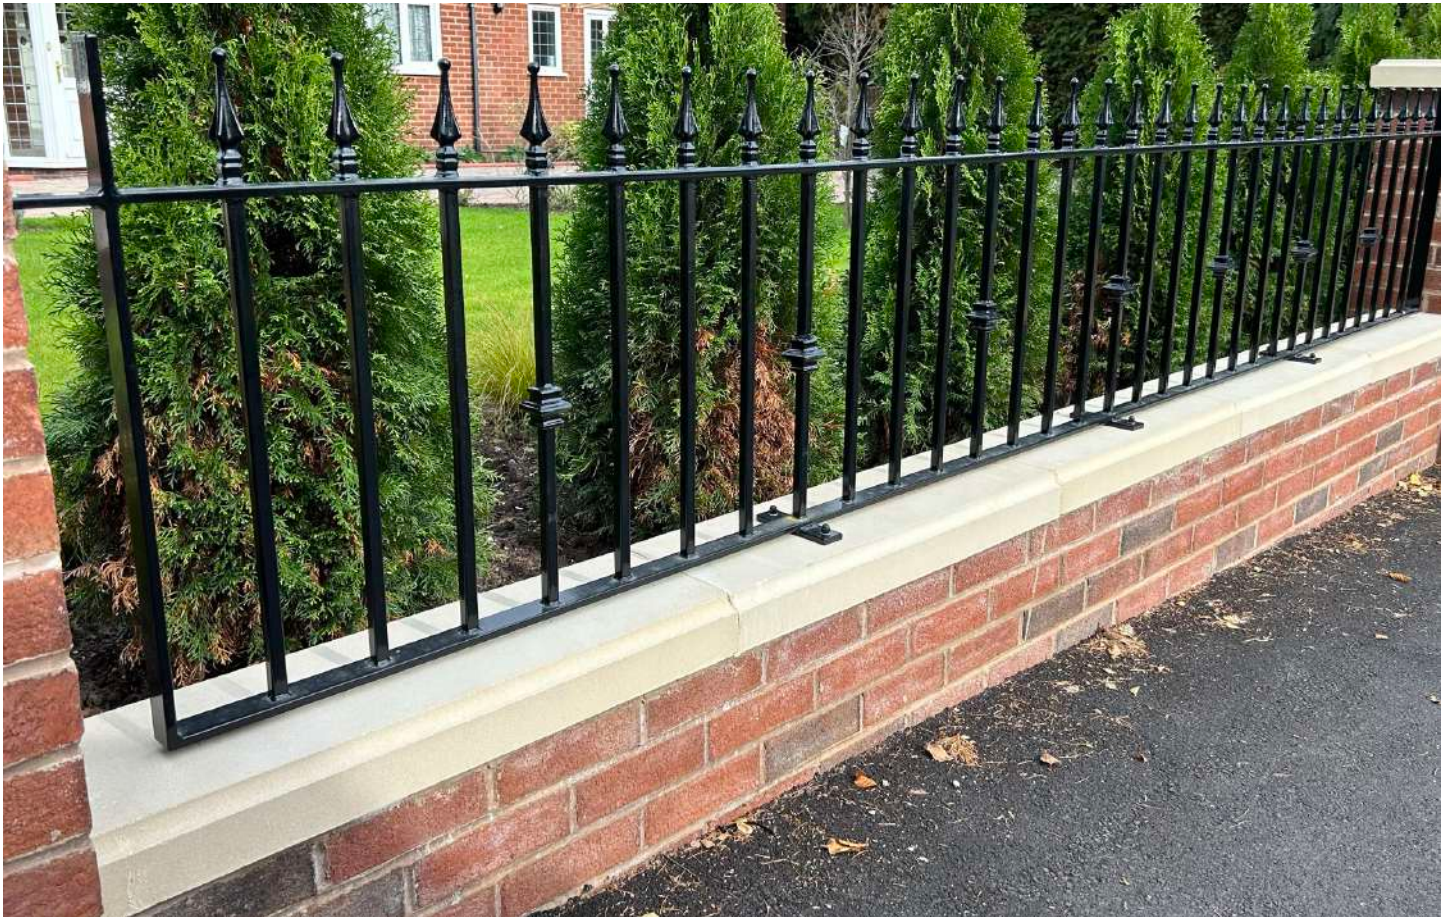

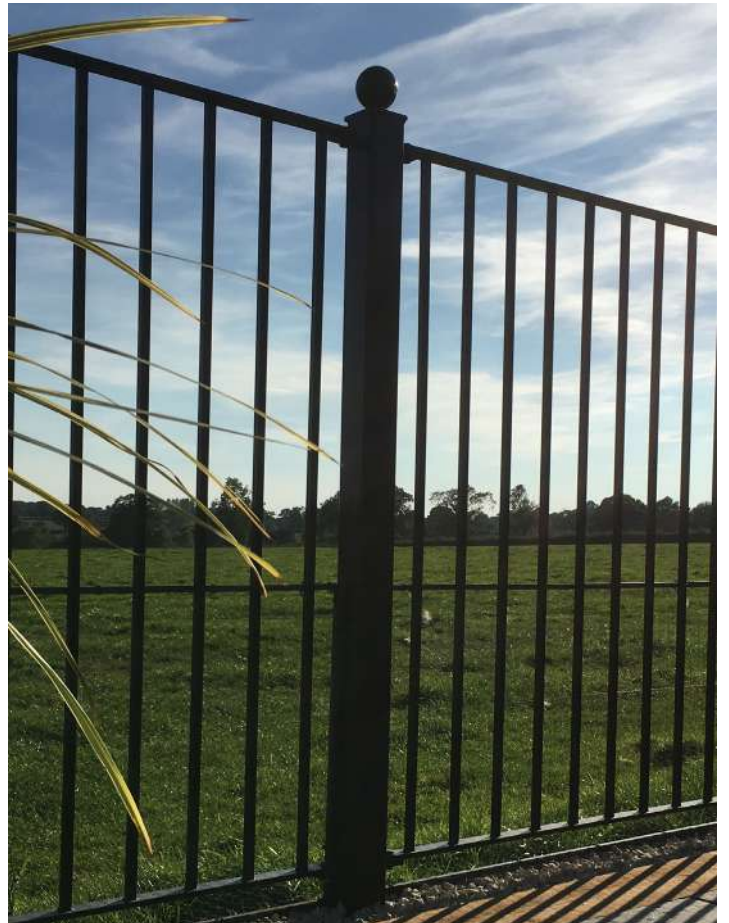

Wrought Iron Gates
